

The Global e-Invoicing Network

OB10 Ranked Number 4 Fastest Growing Technology Company in the UK in the 2008 Deloitte Technology Fast 50

OB10 attributes its 3488% Percent Revenue Growth to the growth of its member network

London, 30 October 2008—OB10 today announced that it ranked Number 4 in the 2008 Deloitte Technology Fast 50, a ranking of the 50 fastest growing technology companies in the UK. Rankings are based on average percentage revenue growth over five years. OB10 grew 3488 percent during this period.

OB10's CEO, Jamie Gunn credits the Global expansion of its member network and introduction of new services with the company's 3488% revenue growth over the past five years. He said, "We are delighted to be included in such a highly regarded list as 2008 Deloitte Technology Fast 50 for the second year running. e-Invoicing is a thriving industry and we anticipate future growth with further geographic expansion, new partnerships and new enhanced services."

"Growing the top line enough to make the Deloitte Technology Fast 50 is especially meaningful during tough economic times for the technology sector," comments David Halstead, lead partner for the Deloitte Fast 50. "The Fast 50 provides a fascinating view of the evolving structure of the UK's tech sector, with software and internet businesses making up the bulk of the fastest growing companies. While their products and services are at the extreme cutting edge of global technology, it is important to note that it is not just technology that makes these companies leaders in their sectors – it is about the quality of the people and their Intellectual Property (IP)."

"Making the Deloitte Technology Fast 50 is a testament to a company's commitment to technology," said Peter O'Donoghue, Deloitte Technology partner for the London Region. "With its 3488 percentage growth rate over five years, OB10 has proven that its leadership has the vision and determination to grow in competitive conditions."

Fast 50 Selection and Qualifications

The Fast 50 list is compiled from Deloitte's nominations submitted directly to the Fast 50, and public company database research. To qualify for the Fast 50, entrants must have had 2003 operating revenues of at least £34,000. Deloitte researchers examined financial statements to validate operating revenues.

Entrants must also be public or private companies headquartered in a participating region of the UK and must be a "technology company," defined as a company that owns proprietary technology that contributes to a significant portion of the company's operating revenues; or devotes a significant proportion of revenues to the research and development of technology. Using other companies' technology in a unique way does not qualify.

Deloitte is a leader in providing strategic, financial and operational assistance to its technology, media and telecommunications clients.

About OB10

OB10 (www.OB10.com) is the leading global B2B e-Invoicing network. OB10 simplifies and streamlines the complex invoice-to-pay processes. Neither client organisations nor their suppliers are required to implement any hardware or software, and OB10 is independent of data file formats. OB10 can reduce the cost of paper invoice processing by typically 60 percent and can deliver an ROI in less than a year if the programme follows OB10's best practice guidelines. Operational across Europe, North America and Asia, OB10 is compliant with the requirements of VAT, tax and e-Invoicing legislation and receives invoices from suppliers in over 100 countries. To ensure unrivalled and rapid supplier enrolment, each new customer's suppliers are supported by an implementation services team responsible for getting them up and running on the OB10 network.

Customers include: Agilent Technologies, Barclays, Cargill, DHL, DSG International, Eli Lilly & Company, Fisher Scientific, General Motors, GlaxoSmithKline, Hewlett Packard, IBM, Kellogg's, Logica, Lufthansa, Mohawk Industries, Norwich Union, SaraLee, Shaw Industries and Steria
