Technology Fast 500 EMEA for second year running**

OB10 attributes its 231st position to record sales in 2009

[OB10](#), the leading global e-Invoicing network, today announced that it ranked 231st on the Deloitte Technology Fast 500 EMEA 2009, an index of the 500 fastest growing technology companies in EMEA. It is the second year in a row that OB10 has appeared on the list. Rankings are based on average percentage revenue growth over five years, with OB10 growing 728 percent during this period.

New members joining the network such as Aviva, BP, British Energy, Hertz, Tesco and Unilever has helped the company to expand its global footprint and achieve this strong growth.

Jamie Gunn, CEO, OB10 comments:

“To be featured on the Deloitte Fast 500 EMEA for the last two years is fantastic news. Last year we predicted that e-Invoicing would continue to thrive, and our numbers bear out this prediction, despite a tough year for businesses across Europe.”

David Halstead, partner in charge of Deloitte’s Technology Fast 500 EMEA program said:

“For the growth of the Fast 500 in 2009 to exceed that of 2008 despite the economic turbulence of the past year is nothing short of phenomenal. It shows both that companies are coming up with technological solutions that are meeting their customer’s needs, but also that they have the drive and determination to succeed despite the

economic issues. We congratulate OB10 on being one of the 500 fastest growing technology companies in the region.”

About Deloitte

“Deloitte” is the brand under which tens of thousands of dedicated professionals in independent firms throughout the world collaborate to provide audit, consulting, financial advisory, risk management and tax services to selected clients. These firms are members of Deloitte Touche Tohmatsu, a Swiss Verein (“DTT”). Each member firm provides services in a particular geographic area and is subject to the laws and professional regulations of the particular country or countries in which it operates. DTT helps coordinate the activities of the member firms but does not itself provide services to clients. DTT and the member firms are separate and distinct legal entities, which cannot obligate the other entities. DTT and each DTT member firm are only liable for their own acts or omissions, and not those of each other. Each DTT Member Firm is structured differently in accordance with national laws, regulations, customary practice and other factors, and may secure the provision of professional services in their territories through subsidiaries, affiliates and/or other entities.

Deloitte refers to one or more of Deloitte Touche Tohmatsu, a Swiss Verein, and its network of member firms, each of which is a legally separate and independent entity.
